Objective

Passionate and dedicated IT graduate with a growing expertise in web development, seeking a challenging position as a Web Developer. Eager to apply the skills I've acquired through continuous learning and experience, while creating innovative and efficient web solutions. Committed to contributing to a dynamic team environment where I can grow professionally and pursue my passion for web development with joy and purpose.

Experience

- **Web developer**
I have an experience with developing a small project with vue js and laravel.
- **Android developer**
I have experienced developing a simple tricycle booking app using java with mapbox.
- **Android Developer**
I'm one of the programmers in our capstone project, we developed a gamified app that teaches Java programming.

Education

- **King's College of the Philippines** 2019-2023
Bachelor of Science in Information Technology

Certification

- **Proficiency in Web Fundamentals**
This certificate of completion is awarded for successfully completing the Web Fundamentals Track by Village 88. The program covered key areas including HTML, CSS, Responsive Design, JQuery, Git & GitHub, Database Design, and SQL Queries.

Skills

- Java
- JavaScript
- Php and basic Laraver Api
- HTML
- CSS
- Bootstrap
- Vue js - Composition API
- PrimeVue
- Pinia
- MySQL

Projects

- **Taxicle**
Taxicle is a simple booking android app, the goal is to book a tricycle service with map integrated.
- **JavaBengture**
A gamified android app that targets students about Java programming. Integrated with graphic design based on Benguet artifacts and tourist's spots.
- **JTech Tasks Management System**
JTech Tasks Management System is a task management application designed to help users efficiently manage their tasks and schedules. It offers two categories for organizing schedules: daily and monthly. The system includes four major features: account management, member management, schedule management, and task management. Built using Vue.js 3 Composition API and Laravel API, this project was developed as a practice tool to enhance my skills in Vue.js and Laravel.

Achievements & Awards
